

Opportunities to practise

<p>Link events to experiences in different contexts.</p>		<p>Provide experiences to support the development of specific learning in a range of situations e.g. set up a ticket office with relevant resources after a visit to the station.</p>
<p>Provide related resources/activities.</p>		<p>Use workshops to follow through particular interests e.g. children making spiders after enjoying the song Incey Wincey Spider at group time.</p>
<p>Provide time for children to follow up activities.</p>		<p>Provide children with an entitlement to resources. Children know where to access these and in their activity will practise and consolidate existing knowledge, concepts and skills.</p>
